Version 2v05 upgrade to Version 4v01

1. All models, Engine system(ME), increase sub version, function include Read / Clear Fault Code
2. All models, ABS system(ME), increase sub version, function include Read / Clear Fault Code
3. All models, Trnsmmission system(ME), increase sub version, function include Read / Clear Fault Code
4. All models, SRS system(ME), increase sub version, function include Read / Clear Fault Code
5. All models, AC / Body system, improve Communication Fail problem
6. All models exclude BRZ, TPMS system, increase sub version, function include Read / Clear Fault Code, Data Stream, TPMS registration function
7. Increase model BRZ, systemfunction include,
 - (1) Engine system, Read / Clear Fault Code
 - (2) Transmission system, Read / Clear Fault Code
 - (3) Brake Control system, Read / Clear Fault Code
 - (4) TPMS system, Read / Clear Fault Code
 - (5) Power Steering system, Read / Clear Fault Code
 - (6) SRS system, Read / Clear Fault Code
 - (7) Passenger Seat Occupancy detection system, Read / Clear Fault Code
 - (8) Intergrate Unit system, Read / Clear Fault Code
 - (9) Instrument Cluster system, Read / Clear Fault Code
 - (10)Power window system, Read / Clear Fault Code
 - (11)Remote control stater system, Adaptation, trouble factor code clear function
8. All models, SRS system(KWP-2000), supplement Read / Clear Fault Code, improve Link Failure problem
9. All models, increase Air Suspension system (SSM)
10. All models, Engine / Transmission system (SSM), supplement sub version
11. All models, increase auto- lightsand wipers system(KWP-2000), function include Read / Clear Fault Code
12. All models, increase AC system (CAN), function include Read / Clear Fault Code, Data Stream
